

Covid-19 Supplementary Risk Assessment

ART LESSONS

Owner:	Carl White		
Consultees:	Tony Johnson, Anthony Bullock		
Version:	9 <i>This document will be updated in line with DfE and Government guidance. Please visit www.bradfordmusiconline.co.uk regularly to ensure that you have the most up to date risk assessment.</i>		
Date of assessment:	4/1/2022	Review date (max 1 yr):	Upon updated government guidance

Description of activity

Whole-class Arts Lessons

References to related risk assessments

If there is a pre-existing risk assessment for this activity, refer to it here. You may also want to link to your risk assessment for collecting in and reallocating instruments.

Existing control measures

These are the things you already do, or are inherent in the activity, that reduce the risks.

	Hazard	Who is at risk?	Control measure(s)	Who is responsible?
1	Understanding school adaptations and Risk Assessment to Co-Vid19	MAS Staff	First visit to a school, MAS staff to run through the school risk assessment and practicalities with appropriate member of school staff. Identify any higher risk children and what PPE and additional risk assessments are associated.	MAS Staff
2	Airborne transmission	Everyone	Staff must wear face shield. Liaise with class teacher to ensure table set up allows for MAS staff to achieve adequate spacing wherever possible (2m recommended). Staff must wear face mask when moving around communal areas in all schools and music centre environments.	MAS Staff
3	Airborne and Surface transmission/close contact	MAS Staff	Staff are requested to Lateral Flow Test twice weekly and report results to NHS and schoolsmusicandarts@bradford.gov.uk .	MAS Staff

Supported using public funding by

			National guidance on close contact referrals applies.	
4	Surface transmission via art equipment	Everyone	Enhanced hand hygiene is routinely observed. Equipment can be shared but additional cleaning is required.	MAS Staff
5	Surface transmission	Everyone	Each student will be issued own paper copies of ART HUNTS or other resources when used and not share. Online or IT based resources can be used if students have individual iPad or similar device assigned and managed by school.	MAS Staff
6	Airborne transmission	Everyone	Ventilation is key. Open windows before the start of the session or work outside if appropriate. If windows are closed on entry, ensure that they are opened. Where the teacher is in situ for extended time, It may be necessary to schedule breaks to ventilate the room and to consider wearing a facemask where windows are not available or sufficient.	MAS staff
7	Surface transmission via equipment used for showing arts examples	MAS Staff	Clean PC, IT equipment. Do not assume that this has been done for you prior to arrival.	MAS staff

Initial risk rating

How likely is the activity to result in actual harm (1-5)?	2
How severe would the consequences be (1-5)?	2
Risk rating (likelihood x severity)	4

Likelihood	more	5					
		4					
		3					
	less	2					
		1					
			1	2	3	4	5
			better		worse		
			Severity				

Additional control measures

These are new measures identify to reduce the risk rating. It is usually easier (and it is perfectly acceptable) to reduce the likelihood of harm rather than the severity.

It is not necessary to implement additional control measures for every hazard identified. Prioritise the hazards you have identified and ensure that control measures are reasonable and proportionate.

	Hazard	Who is at risk?	Control measure(s)	Who is responsible?
1	Airborne transmission	Teacher	Face shield to be worn at all times. Face mask to be worn in communal areas.	MAS staff
2	Airborne transmission (vulnerable teacher)	Teacher	Follow any additional arrangements made direct with the service manager (individual staff basis)	MAS staff
3	Airborne transmission (vulnerable pupils)	Pupil or pupils	Follow additional risk assessment advice provided by school. Initial conversation in school to identify any higher risk children and what PPE and additional risk assessments are associated. Make additional provision for support staff to be in the room and ensure that they are aware of this document.	MAS staff
4	A child develops symptoms of COVID-19 during session delivery, the staff member could be exposed to infection	Everyone	Risk assessment conducted by the school, following government guidelines. <ul style="list-style-type: none"> Staff member will follow the MAS activity risk assessment and ensure face shield is worn whilst delivering, face mask in communal areas. Staff member will alert school staff as per risk assessment Social distancing will have been observed where possible Child will be isolated from group if symptomatic Child will be sent for testing by school NHS Track and Trace will alert accordingly.	MAS Staff
5	The staff member develops symptoms of COVID-19 during a session	Everyone	Staff to remain at home if displaying one of the following symptoms: <ul style="list-style-type: none"> High temperature 	MAS Staff

		<ul style="list-style-type: none"> Persistent cough Loss of taste of smell <p>Staff to ensure timetable up to date and records all contacts with schools via Paritor on a daily basis If symptoms develop during a session the staff member must leave the site immediately, informing an identified member of staff and manager The staff member must obtain a test and report the results to their manager and the identified senior member of staff in school If the staff member test positive for COVID-19, they should isolate in accordance with national guidance.</p>	
--	--	---	--

Residual Risk rating

How likely is the activity to result in actual harm (1-5)?	1
How severe would the consequences be (1-5)?	1
Risk rating (likelihood x severity)	2

Likelihood	more	5					
		4					
		3					
		2					
	less	1					
			1	2	3	4	5
			better		worse		
			Severity				

Risk rating:	1-6	Green	Monitor to ensure control measures are implemented consistently and that the rating remains valid.
	8-12	Amber	Try to identify additional controls to reduce the risk. Ensure that control measures are implemented consistently and look to improve by the next review.
	15-25	Red	Cease this activity until additional controls can be put in place to manage the risk.
